- The prescure of work at Elektrobau Sondershausen has been very great in April 1948. Four of the twelve trailers for the road train have been delivered for the fitting of equipment.
- At the beginning of May 19/8, Major Beurov left with the first completed car and other finished equipment for the USSR.
- 3. The road train was expected to be completed by the end of July 1948. Rumors that the works would then close disturbed the German staff, forty of whom have already been dismissed because of lack of funds, reducing the staff to some 330. Colonel Krynetzky, however, has made it known that the works will not close down and that there would be further contracts for the manufacture of twin ray oscillographs.
- Since the beginning of May, various Soviet commissions from Berlin, consisting of two to four officers, have been spending two or three days a week at the Elektrobau. Two personalities identified among these officers are Nichayev and Asarkh.
